

## Quick Reference Card: End of Year Assessment

This report includes data from the End of Year Assessment that is administered the first Monday each May for both Smarty Ants and Smarty Ants Español. Eligible students will see the assessment automatically when they log in after this date. Students who worked exclusively in the second-grade curriculum are not eligible for the End of Year Assessment. This adaptive assessment begins at the first level students made progress in during the current school year and tests them on each level played. The report also provides placement information for the Initial Assessment, Mid-Year Assessment, and the placement before the End of Year Assessment is administered.

### What to Look for:

- Have students made steady progress from the Initial Placement to the End of Year Assessment? Do the assessment results align with what you know about each of your students?
- Click the question mark icons at the top of each column for more details about the information displayed there.

### How did my students perform on the End of Year Assessment?

#### End of Year Assessment Report

The End of Year Assessment Report shows results of assessments or placement at the time of assessments for each student in the selected class.

### Take Action:

- Review the Goal Status column. Which of your students have met the End of Year Goal? Which still need additional support?
- Provide extension activities for students who have met or have exceeded the goal.
- Provide additional activities and support for students who did not meet the goal.
- Encourage students to continue working in Smarty Ants through the summer to continue strengthening their skills.
